EXPERIENCE

General Electric: Aviation Digital Technology Leadership Program 2017 - Present

Two-year rotational program with 6-months of work experience in each Backend, Full Stack, Data Analytics & Cyber Security

- **Treehouse Hackathon Winner:** 1st in US; 2nd place globally in Treehouse learning hackathon against 72 DTLPs across 14 countries
- **2x "Above & Beyond" Winner:** Hundreds of dollars in gift cards given for going "Above & Beyond" what is required
- **Nominated "Best Digital Technology Program member":** 4th out of 47 program members
- Implemented Apache Solr search engine for small production environment saving \$200,000 in third party licensed software
- Engineered framework for analysts to chain ~170 "warning" indicators together to reduce false positives of internal data leaks
- Lead technical interviews for the team resulting in three new full-time hires for GE Aviation
- Implemented Java API endpoints for project management budgeting tool to improve shared budget information
- Spearheaded and trained team to adopt GitHub and Git CLI, improving speed of development and introducing version control
- Accelerated \$6,300,000 cash opportunity by programming backend SQL tool for inventory reduction

General Electric: Aviation & Digital Software Engineering Internship 2016 - 2017

- Designed user stories, requirements, and wireframes for an Exit Automation project that monitors user activities using big data analytics — alerting the IT team to potential insider threats
- Taught and directed technical interview preparation sessions to fellow interns

Harmon Kardon International Software Engineering Internship 2014 - 2015

- Updated design and test documents using program to track status of 200+ bugs
- Alpha tested amplifiers and speakers — identified and solved two bugs during the pre-launch of a speaker

EDUCATION

Georgia Institute of Technology Master of Science 2018 - Expected 2019

Computer Science with Artificial Intelligence concentration

Coursework: Advanced Networking; Intro. to Information Security; Software Analysis & Testing; Software Architecture

2018 SCLA Honor Society member

Team Lead in Software Architecture class

University of Michigan Bachelor of Science 2014 - 2017

Computer Science with Software Engineering concentration

Coursework: Advanced C++; Algorithm Design; Data Structures; Object-Oriented Programming

Teacher's Assistant: Computer Science I, Computer Science II, & Data Structures & Algorithm Analysis

Dean's List 2015

ICPC Programming Competition Participant 2015 & 2016

Association for Computing Machinery (ACM) member

PROJECTS

L.A.T.E Chrome Extension: Chrome extension helping language learners increase passive study time by swapping words on webpage into their target language of learned vocabulary words from popular Duolingo application

Minesweeper Web Application: A web-based version of minesweeper with beginner, intermediate, and advanced modes

VIM Keyboard: Scripts to enable global Vim-like key bindings allowing people to move between programs & text more easily

ADDITIONAL EXPERIENCE & AWARDS

YouTube Instructor, Computer Science: Basic lectures on CS concepts including data structures and algorithms

Leadership Experience: GE Crotonville Leadership Training, SWE Class Team Lead; President of Math & Physics Club

LANGUAGES & TECHNOLOGIES

Programming Technologies: IDEA IntelliJ • Visual Studio 2013 • MSOL Server • REST

Databases: Microsoft SQL Server • Hibernate • MyBatis 3 • MongoDB • Apache Solr • PostgreSQL

Methodologies: Agile • Scrum • Kanban
